INTERMEDIATE REMOVABLE FILM

See Application Guide on reverse for details on the entire FDC product line.

4725/4775

This film designed for general-purpose signage warranting a 6-year durability.

2401/2451

Designed for a variety of reflective advertising media such as vehicles, nameplates and various other signage not requiring an Engineering Grade film.

4304/4354

An intermediate film designed for short-term removable graphics.

2402/2452

A conformable engineering grade reflective specially suited for fleet graphic applications over rivets and complex surfaces.

2406/2456

This Traffic Grade reflective offers exceptional value for permanent traffic signage applications.

See Application Guide on reverse for details on the entire FDC product line.

2407/2457

Designed for vehicle markings where application to riveted and corrugated surfaces are required.

2408/2458

Water resistant Engineering Grade film with an excellent resistance to chemicals and corrosion. Excellent reflection in poor visibility conditions.

This calendered vinyl film is a tough, scuff-resistant flexible vinyl film. Well suited for applications such as paint masking that require flexibility. This product has a low tack adhesive for use on large surfaces and removes cleanly, with little to no adhesive residue.

For complete product descriptions and durabilities see Application Guide.

See Application Guide on reverse for details on the entire FDC product line.

2901/2951

Promotional Masking Films is a solid color flexible low luster calendered vinyl film, available in a variety of colors.

For complete product descriptions and durabilities see Application Guide.
